Annual Conference 2018:
Formatting instructions for posters

Formatting

- A0 size and vertical/portrait format **only**.
- If your project is funded by the SCCER-SoE, you are required to use this poster template.
- PDF format only.

Print as PDF

Please use the "**Print as PDF**" command **only** to save your posters in PDF format. If you do so, all fonts will be included in the PDF file and we'll have fewer problems when creating the report's layout.

File name

Please name your posters as follows:
[Work package nr.]_[Last name]_[First name]_[Title of the poster].pdf

Deadline for handing in the posters

Please send your posters in PDF format (see above) to Renate Bloch (renate.bloch@sccer-soe.ethz.ch) as soon as possible and the **latest until September 12 at 14:00**. Posters that reach us after the deadline will not be included in the Science Report and we will not send any reminders.

If you have any problems or questions, please don't hesitate to contact us.
